Career Objective

Java Developer skilled in Spring Boot, Microservices, and REST APIs, with experience in building secure and scalable backend systems. Seeking to contribute to high-performance applications in a growth-oriented organization.

Education

B.Tech Computer Science and Engineering

Graduated: 2025

NBN Sinhgad College of Engineering, Solapur

CGPA: 9.6/10

Skills

Programming & Querying: Core Java, OOPs, SQL, PL/SQL, JavaScript

Frontend: HTML, CSS, React.js

Backend: Spring Boot, Spring MVC, Spring Core, Hibernate, JDBC, Servlets

Advanced Technologies: Spring Security, Microservices Architecture, REST APIs

Database: PostgreSQL, Oracle SQL

Tools: Maven, Postman, Git

Experience

Java Full Stack Developer Intern

Jan 2025 – Feb 2026

QSpiders (Software Testing and Development Training Institute), Hadapsar, Pune

- Built scalable backend applications using Spring Boot, Hibernate, and REST APIs.
- Implemented secure authentication and authorization using Spring Security.
- Designed and tested RESTful APIs using Postman.
- Optimized database operations using SQL and Hibernate ORM.
- Implemented Microservices architecture in real-world projects.

Projects

Skin Disease Detection Using Machine Learning | *Python, TensorFlow, OpenCV, HTML, CSS, JavaScript*

- Created a responsive frontend for an ML-based disease detection system.
- Integrated image upload and result visualization features.
- Displayed prediction results with improved UI/UX.

E-Commerce Management System | *Java, Spring MVC, PostgreSQL, Hibernate, Jakarta Servlet*

- Built an e-commerce system to manage products and employee data.
- Developed backend processing using Spring MVC, Hibernate, and Servlets.

Library Management System | *Java, Spring Boot, Spring Data JPA, PostgreSQL, REST APIs, Postman*

- Designed REST APIs for user and book management systems.
- Managed data persistence using Spring Boot and PostgreSQL.

Awards & Certifications

- **Java Programming Certification (Core Java, OOPs, Multithreading):** Gained a strong foundation in Core Java, OOPs, and backend development concepts.
- **SQL and Relational Database Certification:** Acquired skills in writing optimized SQL queries and database design.
- **Frontend Web Development using JavaScript:** Learned modern JavaScript concepts and frontend development practices.
- **Barclays LifeSkills Programme — GTT Foundation:** Completed training focused on employability and workplace readiness.

Extra Curricular Activities

- Volunteer at SIH 2K23, NBN Sinhgad College of Engineering
- Active participant in sports competitions
- Member of College Technical Committee
